

```
set variable sum as 0
set variable sum as sum + 1
set variable sum as sum + 2
set variable sum as sum + 3
set variable sum as sum + 4
set variable sum as sum + 5
set variable sum as sum + 6
set variable sum as sum + 7
set variable sum as sum + 8
set variable sum as sum + 9
set variable sum as sum + 10
print The sum is sum
```

The image shows a sequence of Scratch code blocks. It starts with a 'set variable sum as 0' block. This is followed by ten 'set variable sum as sum + [number]' blocks, where the numbers are 1 through 10. The final block is a 'print The sum is sum' block. The blocks are color-coded: blue for 'set variable' and purple for 'print'.
